AUTHOR / TITLE ALPHABETICAL INDEX

Vol.53, 1989

	No.	Page
AFRAIMOVICH V.S. and VOZOVOI L.P.: The mechanism of the hard appearance of a two-frequency oscillation mode in the case of Andronov-Hopf reverse bifurcation.	1	24
AGRANAT V.M. and GUBIN D.A.: The effect of conjugated and radiant heat exchange on the process of non-stationary combustion of the products of intense gasification of a solid in a stream of gas.	6	767
AKHATOV I.SH.: Shear instability in stratified viscoelastic and gas-liquid media.	4	491
AKULENKO L.D.: Constructive control of the motion of oscillating systems with discrete and distributed parameters.	4	464
AKULENKO L.D. and MIKHAILOV S.A.: Analysis of controlled rotations of an elastic rod around an arbitrary axis.	3	368
ALEKSANDROV V.M. and KUDISH I.I.: Asymptotic methods in the Griffith problem.	4	520
ALIMOV M.M. and SKVORTSOV E.V.: Estimates of the flow rate characteristics in the theory of filtration and heat conduction.	3	355
ARUTYUNYAN N.KH. and MANZHIROV A.V.: Contact problems of the mechanics of bodies with accretion.	1	117
ARUTYUNYAN N.KH. and RADAYEV YU.N.: Elastoplastic torsion of a cylindrical rod for finite deformations.	6	804
ATADZHANOV D.R., SARKISYAN A.G. and TSEITLIN A.I.: Green's function of the stationary dynamic problem for a viscoelastic half-space.	5	614
BAIDOSOV V.A.: A differential game with a fuzzy target set and fuzzy starting positions.	1	46
BAIRAMOV F.D. and SIRAZETDINOV T.K.: The condition for sign-definiteness of integral quadratic forms and the stability of distributed-parameter systems.	4	439
BAKHTIZIN R.N.: Group-theoretical analysis of the equations of motion of a thixotropic fluid.	2	268
BALASHOV D.B. and KAMENYARZH YA.A.: On simple waves in an elastic-ideal plastic medium.	4	551
BANICHUK N.V., BRATUS A.S. and MYSHKIS A.D.: Stabilizing and destablizing effects in non-conservative systems.	2	158
BARABANOV O.O.: On limit surface loads in the theory of plasticity.	5	649
BARDZOKAS D.YA., PARTON V.Z. and THEOCARIS P.S.: Integral equations of elasticity theory for a multiconnected domain with inclusions.	3	375
BATISHCHEV V.A.: The asymptotic form of the unevenly heated free boundary of a capillary fluid at large Marangoni numbers.	3	325
BELETSKII V.V. and GOLUBITSKAYA M.D.: Planar standing and marking-time regimes of a bipedal walking device.	2	173
BELOV N.A.: Exact solutions and numerical analysis of the problem of an intense explosion in certain ideal compressible media.	4	537
BERESLAVSKII E.N.: The forcing out of saline water by fresh water during filtration from a mole irrigator.	3	350
BESHENKOV S.N.: Forced oscillations and the radiation of sound by a circular plate interacting with a fluid.	5	596
BORODACHEV N.M.: On the variational formula and its application to contact problems of elasticity theory.	1	102
BRARHE R.A.: Effect of viscosity on the conditions for the formation of centrifugal solitons in the translational-rotational flow of a liquid.	6	822
BRATUS A.S.: see BANICHUK N.V.	2	158
BRYUM A.Z.: Orbital stability analysis using first integrals.	6	689
BRYKINA I.G., RUSAKOV V.V. and SHCHERBAK V.G.: Approximate formulas for heat flows towards an ideally catalytic surface near a plane of symmetry.	6	756
BULATOVICH R.M.: Analytic solutions of the Hamilton-Jacobi equation of an irreversible system in the neighbourhood of a non-degenerate potential energy maximum.	5	578
BUNIMOVICH A.I. and YAKUNINA G.E.: On the shape of a minimum resistance solid of rotation penetrating plastically compressible media without detachment.	5	680
BURDE H.I.: On the motion of fluid near a stretching circular cylinder.	2	271
BYKOVTSEV A.G.: The refraction of a pure shear shock wave into an elastic-plastic half-space.	2	242
BYKOVTSEV A.S. and KRAMAROVSKII D.B.: Non-stationary supersonic motion of a complex discontinuity.	6	779

	No.	Page
CHEBAKOV M.I.: see LUBYAGIN I.A.	1	97
CHEKIN B.S.: The entry of a wedge into an incompressible fluid.	3	300
CHEPIL M.V.: see RUMYANTSEVA T.G.	2	276
CHEREPANOV G.P.: see KIPNIS L.A.	1	128
CHERNOPAZOV S.A.: see NYASHIN YU.I.	6	811
CHERNOUS'KO F.L.: see GRUDEV A.I.	3	281
DANILOV N.N.: Solution of the problem of dynamic stability in a cooperative differential game with side payments.	1	34
DINARIYEV O.YU. and MOSOLOV A.B.: On the form of the plasticity functional in endochronic inelasticity theories.	2	250
DINARIYEV O.YU. and NIKOLAYEV O.V.: Relaxation phenomena in saturated porous media. Linear theory.	3	362
DOBORDZHGINIDZE L.G.: The problem of the pressure of a rigid stamp on the boundary of a non-linearly elastic half-plane under finite deformations.	5	639
DOLGOVA I.M. and MEL'NIKOV YU.A.: Green's matrix of the plane problem of elasticity theory for an orthotropic strip.	1	81
DOMANSKII A.V.: Some properties of the generalized solutions of one-dimensional two-phase porous flow problems.	5	669
DOVBYSH S.A.: Some new dynamical effects in the perturbed Euler-Poinsot problem, due to splitting of separatrices.	2	165
EGOROV A.G.: Elastic wave damping in thin-layered saturated porous media.	6	721
EPENDIYEV M.B.: An asymptotic analysis of the forced oscillations in systems with slowly varying parameters.	4	429
ERLIKHMAN F.M., Two formulations of an elasto-plastic problem.	6	828
EVKIN A.YU.: A new approach to the asymptotic integration of the equations of shallow convex shell theory in the post-critical stage.	1	92
EVTEYEV V.P. and MUKHAMADIYEV E.M.: Periodic solutions of the elliptical three-body problem near a triangular libration point.	2	266
FILIPPOVA L.M.: see ZELENTSOV V.B.	5	654
FORMAL'SKII A.M.: see LAVROVSKII E.K.	5	590
GABOV S.A., SVESHNIKOV A.G. and SHATOV A.K.: Dispersion of internal waves by an obstacle floating on the boundary separating two liquids.	6	727
GOLUBITSKAYA M.D.: see BELETSKII V.V.	2	173
GOL'DSHTEIN P.V. and MARCHENKO A.V.: The diffraction of plane gravitational waves by the edge of an ice cover.	6	731
GOL'DSHTIK M.A. and SHTERN V.N.: Analysis of the paradox of the interaction of a vortex filament with a plane.	3	319
GOL'DSHTIK M.A. and SHTERN V.N.: A turbulent vortical dynamo.	4	477
GONOR A.L. and PORUCHIKOV V.B.: The penetration of star-shaped bodies into a compressible fluid.	3	308
GORDEYEV YU.N.: Selfsimilar problems of star-shaped crack development under the action of a cleaving gas flow.	2	261
GRINFEL'D M.A. and LAZAREV M.P.: Stability of heterogeneous systems with coherent interphase boundaries.	2	222
GRISHIN A.M. and ZELENSKII E.E.: The effect of multicomponent diffusion on the stability of laminar flames.	1	62
GRUDEV A.I., ISHLINSKII A.YU. and CHERNOUS'KO F.L.: On the motion of a particle over a rough rotation plane.	3	281
GUBIN D.A.: see AGRANAT V.M.	6	767
GULYAYEV V.I., ZUBRITSKAYA A.L and KOSHKIN V.L.: A universal sequence of period-doubling bifurcations of the forced oscillations of a pendulum.	5	561
GUMEROV N.A.: The weak non-linear fluctuations in the radius of a condensed drop in an acoustic field.	2	203
GUPALOV YU.P., REDNIKOV A.E. and RYAZANTSEV YU.S.: Thermocapillary drift of a drop in the case when the surface tension depends non-linearly on the temperature.	3	332
GUZ A.N. and LAPUSTA YU.N.: On a method of investigating fibre stability in an elastic semi-infinite matrix near a free surface.	4	546

	No.	Page
IGANT'YEV A.O.: On retaining the property of uniform asymptotic stability with respect to some of the variables.	1	136
ISHLINSKII A.YU.: see GRUDEV A.I.	3	281
IVANOV A.P.: The preservation of the stability of a mechanical system when a non-retaining constraint is weakened.	4	417
KAGADII T.S. and PAVLENKO A.V.: The axisymmetric problem of transferring a load to a viscoelastic orthotropic body by means of an elastic rod.	5	619
KALENOVA V.I., MOROZOV V.M. and SALMINA M.A.: The problem of stabilizing the steady motions of systems with cyclic coordinates.	5	555
KALINCHUK V.V., LYSENKO I.V. and POLYAKOVA I.B.: Singularities of the interaction of a vibrating stamp with an inhomogeneous heavy base.	2	235
KALININ A.I., An algorithm for the asymptotic solution of a singularly perturbed linear time-optimal control problem.	6	695
KAMENYARZH YA.A.: Conditions on surfaces of discontinuity in a rigid-plastic analysis.	3	392
KAMENYARZH YA.A.: see BALASHOV D.B.	4	551
KANAUN S.K. and KUDRYAVTSEVA L.T.: Elastic and thermoelastic characteristics of composites reinforced with unidirectional fibre layers.	5	628
KANDOBA I.N.: An algorithm for shape optimization in elliptic systems.	2	217
KARIMOV S.R. and SOKOL'SKII A.G.: A method for continuing families of periodic solutions of Lagrangian systems.	1	1
KIPNIS L.A.: Slip lines at the corner of the interfacial boundary of different media.	6	815
KIPNIS L.A. and CHEREPANOV G.P.: Application of the principle of choice in the problem of the initial development of slip lines from a corner point.	1	128
KLIMOV V.V. and PROZOROVSKII V.L.: The method of contour dynamics for axisymmetric vortical structures with spatially bounded vorticity.	4	487
KOLMANOVSKII V.B. and KOROLEVA N.I.: Optimal control of some bilinear systems with aftereffect.	2	183
KOLOSOV V.A.: Stabilization of weakly linear systems.	6	703
KONONOV A.V.: On the problem of the collapse of cavitational voids.	2	273
KONOPLEV V.A.: The construction of composite models for the mechanics of a support of a set of rigid bodies.	1	18
KOROLEVA N.I.: see KOLMANOVSKII V.B.	2	183
KOSENKO I.I.: The construction of phase paths of a Hamiltonian system in the neighbourhood of an equilibrium.	4	411
KOSHKIN V.L.: see GULYAYEV V.I.	5	561
KOVALENKO E.V.: Some approximate methods of solving integral equations of mixed problems.	1	85
KOVALEV A.M.: Support and calibration functions of reachability regions of linear controlled systems.	2	189
KOZLOV V.V.: On a Kelvin problem.	1	133
KOZYREV O.R. and STEPANYANTS YU.A.: Estimation of growing perturbation parameters in shear flows of a viscous stratified fluid.	3	406
KRAIKO A.N. and MUNIN S.A.: On sonic flows impinging on wedge-shaped obstructions.	3	315
KRAMAROVSKII D.B.: see BYKOVTSEV A.S.	6	779
KREINOVICH V.YA.: see VAKULENKO A.A.	5	660
KUBLIKOV V.L.: see VATUL'YAN A.O.	6	824
KUDISH I.I.: see ALEKSANDROV V.M.	4	520
KUDRYAVTSEVA L.T.: see KANAUN S.K.	5	628
KUKSIN S.B.: An averaging theorem for distributed conservative systems and its application to Von Karman's equations.	2	150
KULIKOVSKII A.G. and PEKUROVSKAYA L.A.: On fronts of strong and weak discontinuities in solutions of the equations of different-modulus elasticity theory.	2	230
KULIYEV S.A.: The solution of problems of elasticity theory by the method of analytic functions	5	672
KURYACHII A.P.: The stability of Couette-Taylor electrohydrodynamic flow.	3	345

	No.	Page
LAPUSTA YU.N.: see GUZ A.N.	4	546
LAVROVSKII E.K. and FORMAL'SKII A.M.: Stabilization of a given position of an elastic rod.	5	590
LAZAREV M.P.: see GRINFEL'D M.A.	2	222
LIKHACHEV V.N.: Focusing of shock waves in a highly viscous liquid.	6	750
LOMAZOV V.A.: The diagnostic problem for elastic semi-bounded bodies.	5	601
LUBYAGIN I.A. and CHEBAKOV M.I.: On the asymptotic method of 'large λ'.	1	97
LUKERCHENKO V.N.: The construction of the dissipative plastic flow function on the basis of microscopic representations.	5	643
LYAO SYAOSIN.: Stability of motion of linear systems relative to some of the variables.	6	820
LYSENKO I.V.: see KALINCHUK V.V.	2	235
MANZHIROV A.V.: see ARUTYUNYAN N.KH.	1	117
MARCHENKO A.V.: see GOL'DSHTEIN R.V.	6	731
MARKEYEV A.P.: Qualitative analysis of systems with an ideal non-conservative constraint.	6	685
MARKHASHOV L.M.: On relativistic analogues of particle dynamics.	3	289
MELESHKO S.V.: On non-isentropic stationary spatial and planar non-stationary double-waves.	2	198
MEL'NIKOV YU.A.: see DOLGOVA I.M.	1	81
MIKHAILOV S.A.: see AKULENKO L.D.	3	368
MIRER S.A., ODINTSOVA S.A. and SARYCHEV V.A.: Limiting stationary modes of a rigid body on a string suspension.	1	29
MIRONOV M.A. and SAZONOV I.A.: The problem of waves of discrete spectrum in shear flows with sign-constant curvature of the profile.	6	743
MISYURA V.A.: On a class of elasticity theory problems with non-classical boundary conditions.	4	542
MOKRIK R.I. and OLIYARNIK I.V.: Use of an orthoexponential transformation in the study of the non-stationary equations of thermoelasticity and thermoviscoelasticity.	6	791
MOROZOV A.D.: Limit cycles and chaos in equations of the pendulum type.	5	565
MOROZOV V.M.: see KALENOVA V.I.	5	555
MOSOLOV A.B.: see DINARIYEV O.YU.	2	250
MOSSAKOVSKII V.I. and POSHIVALOVA E.V.: The pressure exerted by a stamp of circular cross-section on an elastic half-space.	5	636
MUKHAMADIYEV E.M.: see EVTEYEV V.P.	2	266
MUNIN S.A.: see KRAIKO A.N.	3	315
MYSHKIS A.D.: see BANICHUK N.V.	2	158
NAGAYEV R.F. and PILIPCHUK V.N.: Non-linear dynamics of a conservative systems degenerating into a system with a singular set.	2	145
NAKHMEIN E.L. and NULLER B.M.: On the subsonic stationary motion of stamps and flexible cover-plates on the boundary of an elastic half-plane and a composite plane.	1	108
NAZ'AROV S.A.: see ZORIN I.S.	4	500
NIKOLAYEV O.V.: see DINARIYEV O.YU.	3	362
NULLER B.M.: see NAKHMEIN E.L.	1	108
NYASHIN YU.I. and CHERNOPAZOV S.A.: On the formulation of the contact problem of elastic plasticity.	6	811
ODINT'SOVA S.A.: see MIRER S.A.	1	29
OLIYARNIK I.V.: see MOKRIK R.I.	6	791
OVSEYEVICH A.I.: Complete controllability of linear dynamic systems.	5	665
PAN'KO S.V.: A representation of the solutions of the generalized Cauchy-Riemann equations and its applications.	5	581
